# COVID-19 Content

A few tools are available to help assist with COVID patients:

1. A surveillance indicator on the tracker board

2. A COVID-19 order set

3. COVID ED APSO canned text for documentation in the ED Provider Note Section

4. COVID-19 ED Suspect/Confirm canned text for the additional provider instructions field of the discharge plan

Tracker Anatomy

## Where to find your patient after they've left the ED

Whether discharged, admitted, moved to the OR, once the patient status has changed to DCRN or DCSEC, the bed will be cleaned and the patient will fall off the tracker board.
You can find this patient via:

My Recently Removed list on the My Patients compressed tracker list

The Documents column on the compressed tracker view

The Recently Accessed List

ED Tracker Statuses

REC - Received
TRIAGE
PRIORITY - Priority Patient
DWAIT - Waiting Dpod
EDWAIT - Waiting Main ED
INROOM
MD REV - ED Provider Review
XRAYR - Xray Ready
XRAYD - Xray Done
XRAYIP - Xray in progress
CTCN - CT Creatinine Needed
CTR - CT Ready for patient
CTIP - CT In Progress
CTD - CT Done
USR - US Patient Ready (ED)
USIP - US Ready for Patient(US)
USIP2 - US Patient Sent (ED)
USD - US Done (US)
MRIP - MRI in Progress
MEDCL - Medically Cleared
REEVAL - Reevaluate
MD EVAL. NEEDED
TRANSFER
PDC - Prepare for Discharge
DCWT - Awaiting transport
ADMD - ED Decision to Admit
ADMC - Admission Called
BEDR - Bed Reserved
DCR - Ready for discharge
DCRN - Discharge Nurse
DIRTY - Dirty Room
ADMVINP - Admit ED Inpatient
ADMINP - Admit Inpatient
DCSEC - Discharge - Secretary
DCRNOR - Discharge RN OR

Tracker Tabs/ED Lists

My Patients	Shows only those patients you are signed up for
NDA (No Doctor Assigned) Location	all patients without a physician signed up for them
All Pods	A complete view of every patient in the ED
ED Mobile/ Overflow	All those who are in the mobile tent or those who are in a Received Status
Recently Accessed	A running list of all patients you've recently accessed

Key Statuses & What They Mean

Triage	RN Triage assessment complete; Provider can begin signing up for patients
DCR	Ready for Discharge– Provider indicates this by clicking ready for discharge in discharge plan
Reeval	When all tests are resulted, RN will change patient status to reeval to signal to provider to reevaluate patient (admit vs discharge)
PDC	Provider can change to this status to indicate to the RN to ready the patient for discharge

Document Tricks

You will be using the PG ED Provider Note. If you do not see it on the initial overlay, you may have to uncheck 'view complaint only'

Select Document
Search Documents | View Complaint Only ☑
ED Provider Note v2
General (ED) v3
Shortness of Breath (ED)
Visit Note (ED)

Search for PG

Select Document

PG ED Provider Note

Canned Text

Canned Text
APSO | Support Text ☐
BHU APSO CPT CODE ☆
COVID ED APSO ★
ED - APSO ★
ED APSO- APP ★

In the ED Provider Note Section, it can save a lot of time if you start with a canned text. The most helpful canned text all have APSO in the title, so search for APSO and you will find them.

Taking Advantage of []

Brackets [] are throughout the canned texts mentioned above. To quickly navigate to these, press the F4 key, use the ⟨⟩ in the meditor bar, or say 'next field' using dragon.

Ordering Tips

Key things to remember when ordering:

1. Suggested sets appear based on the patient's chief complaint; critical path order sets are for nursing use

2. Medications are automatically verified - NO pharmacist review unless requested

   ED pharmacist: x2259 (M-F 1200-2030, SaSu 0900-1730)

   Main pharmacy x6176   (24/7)

3. Many single-dose medications will automatically "discontinue" one minute after ordering - RN prompt to administer will persist until dose is administered

4. **Never** enter the transfer routine, even if you see a yellow transfer flag

5. If you are admitting the patient, you will need to place the **ED Decision to Admit** order

6. If you are discharging the patient, you do not need to order a discharge order but you do need to check 'Ready for Discharge' at the top of the discharge plan

   Ready for Discharge: ☐
