There are different ways we can sort this list. To view them, click the 'Name' button.

The screenshot shows a web application interface for managing medical orders. At the top, there is a navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. Below this is a header for 'Orders' with search and queue management buttons. The main area displays a table of medications with a dropdown menu open over the 'Name' column. The dropdown options are 'Name', 'Drug Class', and 'Problem'. A green callout box points to the 'Drug Class' option with the text 'click on 'Drug Class''. The medication list includes items like amoxicillin, apixaban, metformin, metoprolol succinate, ondansetron HCl, oxycodone-acetaminophen, prednisone, and tetracycline. A patient summary panel on the right shows details for 'T-Test, Bob', including arrival status, visit date, and various clinical sections like Allergies, Vital Signs, Problems, Home Meds, Lab Results, Diagnostic Imaging Reports, and Provider Notes.

A drop down appears with your options, including Drug Class and Problem. Click on 'Drug Class'.

The screenshot shows a web browser window with the URL <https://webacute.mountrnity.org/cectest/s0000119953561523/>. The interface is titled 'Orders' and features a navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. Below the navigation bar, there are search and filter options: 'Search Medications', 'Search Sets', and 'Hold Queue'. The main content area is titled 'Manage Medications by Drug Class' and lists several medication classes. The class 'Beta Blockers Cardiac Selective' is highlighted with a red box, and a green callout box with the text 'click on the chevron' points to the chevron icon on the left of this class. Other classes include Aminopenicillin Antibiotic, Analgesic Opioid Oxycodone and Non-Salicylate Combinations, Antiemetic - Selective Serotonin 5-HT3 Antagonists, Direct Factor Xa Inhibitors, Insulin Response Enhancers - Biguanides, and Tetracycline Antibiotics. At the bottom of the class list, there are buttons for 'Manage Orders', 'Search Orders', and 'Outstanding'. On the right side of the interface, there is a patient information panel for 'T-Test, Bob', 70, M, 08/07/1948, MRN# M000003033. The panel includes a 'Reconcile' button, a 'Search Chart' field, and several expandable sections: Allergies (No Data to Display), Vital Signs (No Data to Display), Problems (No Data to Display), Home Meds (Not Confirmed), Lab Results Last 24 Hrs (Most Recent), Diagnostic Imaging Reports, and Provider Notes Last 24 Hrs.

You'll notice with this view you can only see the Classes. To see the medications prescribed to this patient within the Beta Blocker class, click on the chevron to the left of 'Beta Blockers'.

You can now see the medication name and details; on the right side you may notice the date, which is the last date this was reported as an active medication. Click on 'Drug Class' again.

The screenshot displays a web-based medical orders management system. At the top, there's a navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. Below this is a header for 'Orders' with search and queue management options. The main area is titled 'Manage Medications by Drug Class' and shows a list of drug classes. A dropdown menu is open for the 'Name' option, and a green callout box with the text 'click on 'Name'' points to it. The right sidebar contains patient information for 'T-Test, Bob' and several clinical data sections: Allergies, Vital Signs, Problems, Home Meds, Lab Results Last 24 Hrs, Diagnostic Imaging Reports, and Provider Notes Last 24 Hrs.

To view the medications sorted alphabetically by name, select 'Name'.

The screenshot displays a web-based medical orders management system. The main area shows a list of medications for patient T-Test, Bob, with a 'Reconcile' button highlighted in red for the discontinued tetracycline medication. A green callout box points to the button with the text 'click the 'Reconcile' button'. The right sidebar shows patient information and various clinical data sections.

The Reconcile button will appear red when medications have not yet been reconciled for the visit. Click the 'Reconcile' button.

The screenshot displays a web-based medication management interface. At the top, there's a navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. Below this is a header for 'Orders' and a sub-header 'Manage Medications' with a 'Back' button. The main area is divided into two panes. The left pane, titled 'Active Med List', shows a list of medications with their details and 'Confirm' buttons. The medication 'ondansetron HCl 4 mg tablet (Zofran)' is highlighted with a red box, and a green callout bubble points to it with the text 'click on "Zofran"'. The right pane shows patient information for 'T-Test, Bob' and several expandable sections: Allergies (No Data to Display), Vital Signs (No Data to Display), Problems (No Data to Display), Home Meds (Not Confirmed), Lab Results Last 24 Hrs (Most Recent), Diagnostic Imaging Reports, and Provider Notes Last 24 Hrs.

This routine can be used to Confirm, Edit, Add, or Remove 'Active Medications' from the patient's chart. If a nurse or provider changes a medication order significantly, this will be reflected in the details of the order. To show this, begin by editing the order. Click on the drug name for 'Zofran'.

The screenshot displays a web-based medical orders management interface. A modal window titled "Modify Order" is open for the medication "ondansetron HCl 4 mg tablet (Zofran)". The modal contains several input fields and controls:

- Dose:** A dropdown menu currently showing "8 mg (2 tabs)". A green callout box with the text "click on '8 mg (2 tabs)'" points to this field.
- *Route:** A dropdown menu showing "PO".
- Frequency:** A dropdown menu showing "TID".
- Reason:** A text input field containing "nausea and vomiting".
- Diagnosis:** An empty text input field.
- Source:** An empty text input field.
- Comment/Note:** A large empty text area.
- Ordering Provider:** A dropdown menu showing "Sheehan, Tracy".
- Last Taken:** A section with three input fields: "Date", "Time" (with a "HHMM" label), and "Recorded Dose".

The background interface shows a list of active medications on the left, including amoxicillin, apixaban, metformin, metoprolol, ondansetron, oxycodone, and prednisone. The top navigation bar includes options like "Return To", "Home", "Workload", "Chart", "Document", "Orders", "Sign", "Compose", "More", and "Suspend".

This brings up the overlay to modify the order. Notice you can change the Dose, Route and Frequency. You can make comments and verify the Last Date and Time the last dose was taken. To edit the dose, click on '8 mg 2 tabs'.

PRN Medications require a reason. This can either be chosen from a drop down menu or typed in as Free Text. This medication already has a pre-filled reason of 'nausea and vomiting'. Click on 'nausea and vomiting'.

The screenshot shows a web browser window with the URL <https://webacute.mountrnity.org/cectest/s0000119953561523/>. The application interface includes a top navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. The main content area is titled 'Orders' and features a 'Manage' section with 'Exit' and 'Queue & Exit' buttons. The active medication is 'ondansetron HCl 4 mg tablet (Zofran)'. The 'Modify Order' window is open, showing the following fields:

- Dose:** 4 mg (1 tab)
- *Route:** PO
- Frequency:** TID, PRN
- Reason:** nausea and vomiting
- Diagnosis Code:** [Empty field]
- Source:** [Empty field]
- Comment/Note:** [Red box highlights this field]
- Ordering Provider:** Shelhan, Tracy
- Last Taken:** [Empty field]
- Recorded Dose:** [Empty field]

A green callout bubble with the text 'click in the 'Comment/Note' field' points to the red-bordered 'Comment/Note' field.

Next, you have an option to enter a comment to explain why this Dose is being changed. Click in the 'Comment/Note' field.

The screenshot displays a web-based medical orders management system. The main window is titled "Orders" and shows a "Modify Order" dialog for "ondansetron HCl 4 mg tablet (Zofran)". The dialog includes fields for "Dose" (4 mg (1 tab)), "Route" (PO), and "Frequency" (TID, PRN). A "Reason" field contains "nausea and vomiting". A "Comment/Note" field is highlighted with a blue box and contains the text "Pt doesn't take daily". A callout bubble points to this field with the text "we will type in 'Pt doesn't take daily'". The background shows a list of active medications and a navigation menu.

This section can be used to communicate to the providers why a medication change was made. In the 'Comment/Note' field we will type in 'Pt doesn't take daily'.

Now, click the 'Queue and Exit' button.

The screenshot displays a web-based medical application interface. At the top, there is a navigation bar with icons for 'Return To', 'Home', 'Workload', 'Chart', 'Document', 'Orders', 'Sign', 'Compose', 'More', and 'Suspend'. Below this is a header section titled 'Orders' with a 'Manage Medications' sub-header. The main area is divided into two columns. The left column, 'Active Med List', contains a list of medications with their dosages and frequencies, each with a 'Confirm' button and a date of '02/01/19'. The right column, 'External Meds by Date', has tabs for 'Rx History' and 'CCD Meds', with a 'Save' button highlighted in green and a callout box that says 'click the 'Save' button'. The right sidebar shows patient information for 'T-Test, Bob', including age, sex, date of birth, and MRN. It also lists various clinical data points like 'Allergies', 'Vital Signs', 'Problems', 'Home Meds', 'Lab Results Last 24 Hrs', 'Diagnostic Imaging Reports', and 'Provider Notes Last 24 Hrs'.

Medication	Dosage/Frequency	Date	Action
amoxicillin 500 mg capsule	500 mg PO BID	02/01/19	Confirm
apixaban 5 mg tablet	5 mg PO BID	02/01/19	Confirm
metformin 500 mg tablet	500 mg PO BID	02/01/19	Confirm
metoprolol succinate ER 50 mg capsule sprinkle, ext. release 24 hr	50 mg PO DAILY	02/01/19	Confirm
ondansetron HCl 4 mg tablet (Zofran)	4 mg PO TID PRN	02/01/19	Confirm (checked)
oxycodone-acetaminophen 5 mg-325 mg tablet (Percocet)	1 tab PO Q8H	02/01/19	Confirm
prednisone 20 mg tablet	20 mg PO BID	02/01/19	Confirm

You'll now notice there is a green 'Save' button in the upper right corner. It is possible to change multiple medications before saving, but for now, click the 'Save' button.

The screenshot displays a web-based medical orders management system. The main area is titled "Orders" and lists medications for a patient named "T-Test, Bob". A callout box with the text "click the 'Reconcile' button" points to a "Reconcile" button in the top right corner of the medication list. The medication list includes:

- amoxicillin 500 mg PO BID
- apixaban 5 mg PO BID
- metformin 500 mg PO BID
- metoprolol succinate ER 50 mg PO DAILY
- ondansetron HCl 4 mg tablet (Zofran) - Reported 02/01/19. This entry is expanded to show: 4 mg PO TID PRN, nausea and vomiting, Pt doesn't take daily, and buttons for Prescribe, Stop, and Hold.
- oxycodone-acetaminophen 5-325 mg (Percocet) 1 tab PO Q8H
- prednisone 20 mg PO BID
- tetracycline 500 mg PO Q12H - Discontinued

The right sidebar contains patient information: "T-Test, Bob", "70, M · 08/07/1948", "MRN# M000003033", and "Arrived REG AMB, PG.CARDSC". Below this are sections for "Allergies", "Vital Signs", "Problems", "Home Meds", "Lab Results Last 24 Hrs", "Diagnostic Imaging Reports", and "Provider Notes Last 24 Hrs".

You are returned to the main Orders screen; however, you aren't finished with Med Rec. To go back into the reconciliation routine, click the 'Reconcile' button.

Notice that Zofran now contains the corrected Dose, Strength, and Frequency, as reported by the patient, as well as the dose as written in the prescription. There are a few ways the medication list can be reconciled. If the medication list is correct and needs no changes, you can click the 'Confirm All' button which will place green check boxes to the right of each order. Click the 'Confirm All' button.

The screenshot shows a web application interface for managing medications. The main area is titled "Orders" and "Manage Medications". It displays a list of active medications for a patient named "T-Test, Bob". The list includes:

- amoxicillin 500 mg capsule (500 mg PO BID) - Unmatched
- apixaban 5 mg tablet (5 mg PO BID) - 02/01/19, checked
- metformin 500 mg tablet (500 mg PO BID) - 02/01/19, checked
- metoprolol succinate ER 50 mg capsule sprinkle, ext. release 24 hr (50 mg PO DAILY) - 02/01/19, checked
- ondansetron HCl 4 mg tablet (Zofran) (4 mg PO TID PRN) - 02/01/19, checked
- oxycodone-acetaminophen 5 mg-325 mg tablet (Percocet) (1 tab PO Q8H) - 02/01/19, checked
- prednisone 20 mg tablet (20 mg PO BID) - 02/01/19, checked

A "Confirm All" button is highlighted with a red box, and a "Save" button is highlighted with a blue box. A green callout box points to the "Confirm All" button with the text "click the 'Confirm All' button". The right sidebar shows patient information and various tabs like Allergies, Vital Signs, Problems, Home Meds, Lab Results, Diagnostic Imaging Reports, and Provider Notes.

All of the orders now have **green** check boxes to the right of the order name, and the 'Save' button appears in the upper right hand corner. If you click the 'Confirm All' button erroneously, this can be un-done. To do so, click the 'Confirm All' button a second time.

When you do this, the 'Stop' button appears to the right of the Order name. Click the 'Stop' button.

The screenshot displays a web-based medical application interface. At the top, there is a browser address bar showing the URL <https://webacute.mountrnity.org/cectest/s0000119953561523/>. Below the browser is a navigation bar with icons for 'Return To', 'Home', 'Workload', 'Chart', 'Document', 'Orders', 'Sign', 'Compose', 'More', and 'Suspend'. The main content area is titled 'Orders' and contains a 'Manage Medications' section. This section includes a 'Last Reconciled 02/01/19 by Tracy Sheehan, MD' status and 'Exit' and 'Save' buttons. The 'Active Med List' is shown with several entries, each with a 'Confirm' button. A callout box with a green background and white text says 'click on 'Edit Stop Reason'' and points to the 'Edit Stop Reason' button, which is highlighted with a red rectangle. Below the active list is an 'Inactive Meds' section. To the right of the medication list is a sidebar for patient information, including the name 'T-Test, Bob', age '70, M', date of birth '08/07/1948', MRN# 'M000003033', and visit date '02/01/19'. The sidebar also contains sections for 'Allergies', 'Vital Signs', 'Problems', 'Home Meds', 'Lab Results Last 24 Hrs', 'Diagnostic Imaging Reports', and 'Provider Notes Last 24 Hrs'.

Select 'Edit Stop Reason'.

The screenshot displays a web-based medical application interface. At the top, there is a navigation bar with icons for 'Return To', 'Home', 'Workload', 'Chart', 'Document', 'Orders', 'Sign', 'Compose', 'More', and 'Suspend'. Below this is a header section for 'Orders' and 'Manage Medications'. The main area shows an 'Active Med List' with several medications, each with a 'Confirm' button and a date. A 'Stop Reason' dropdown menu is open over the 'oxycode' entry, listing various reasons such as 'None', 'Dose Change', 'Entered in error', 'Order Change', 'Patient Condition', 'Patient Refused', 'Patient no longer taking', and 'Wrong Patient'. The 'Patient no longer taking' option is highlighted with a red box, and a green callout bubble points to it with the text 'click on 'Patient no longer taking''. The right-hand sidebar contains patient information for 'T-Test, Bob' and several clinical data sections: 'Allergies', 'Vital Signs', 'Problems', 'Home Meds', 'Lab Results Last 24 Hrs', 'Diagnostic Imaging Reports', and 'Provider Notes Last 24 Hrs'.

A Stop Reason overlay appears with a variety of reasons. Select 'Patient no longer taking.'

The screenshot displays a web-based medical application interface. At the top, there is a navigation bar with icons for 'Return To', 'Home', 'Workload', 'Chart', 'Document', 'Orders', 'Sign', 'Compose', 'More', and 'Suspend'. Below this is a header for 'Orders' and a sub-header for 'Manage Medications'. The main area is divided into two columns. The left column, titled 'Active Med List', contains a list of medications with 'Confirm' buttons and dates. The right column, titled 'External Meds by Date', shows 'Rx History' and 'CCD Meds' with 'Unmatched' status. A green callout box points to a chevron icon in the 'Active Med List' with the text 'click on the chevron'. Below the 'Active Med List' is an 'Inactive Meds' section with a chevron icon highlighted by a red box. The right sidebar shows patient information for 'T-Test, Bob' and various clinical data sections like 'Allergies', 'Vital Signs', 'Problems', 'Home Meds', 'Lab Results Last 24 Hrs', 'Diagnostic Imaging Reports', and 'Provider Notes Last 24 Hrs'.

'Stop' now appears beside the Prednisone. To look at other medications, that have been discontinued, click on the chevron in the 'Inactive Meds' header at the bottom of the Active Med List.

The screenshot displays a web-based medical application interface. At the top, there is a navigation bar with icons for 'Return To', 'Home', 'Workload', 'Chart', 'Document', 'Orders', 'Sign', 'Compose', 'More', and 'Suspend'. Below this is a header section titled 'Orders' with a refresh icon and an information icon. The main content area is titled 'Manage Medications' and includes a sub-header 'Active Med List' with a 'Confirm All' button and a 'Search Meds' dropdown. The 'Active Med List' contains several medication entries, each with a 'Confirm' button and a date of '02/01/19'. Below this is an 'Inactive Meds' section, which is highlighted with a blue border. It contains one entry: 'tetracycline 500 mg capsule 500 mg PO Q12H', marked as 'Discontinued' on '02/01/19'. To the right of the 'Active Med List' is a section titled 'External Meds by Date' with a dropdown menu. The 'Rx History' option is highlighted with a red box, and a green callout box with the text 'click on the chevron' points to the right-pointing arrow next to it. The 'CCD Meds' option is also visible. The right-hand sidebar contains patient information for 'T-Test, Bob', including age, sex, date of birth, MRN, and arrival information. Below this are sections for 'Allergies', 'Vital Signs', 'Problems', 'Home Meds', 'Lab Results Last 24 Hrs', 'Diagnostic Imaging Reports', and 'Provider Notes Last 24 Hrs'.

The medications that appear here have been stopped within the past 24 hours. Now let's take a look at 'Unmatched Rx History'. Click on the chevron next to 'Rx History'.

This will display any medications that are associated with this patient that came from an external source, such as from pharmacy information. These medications can be added to the Active Med List by clicking on the '+' sign. Clicking on the '-' sign will removed them from the RX History list and is your way of indicating that the medication does not need to be added to the patient's medication list.

The screenshot displays a web-based medical application interface. At the top, there is a navigation bar with icons for 'Return To', 'Home', 'Workload', 'Chart', 'Document', 'Orders', 'Sign', 'Compose', 'More', and 'Suspend'. Below this is a header for 'Orders' and a sub-header for 'Manage Medications'. The main area is divided into two columns. The left column, titled 'Active Med List', contains a list of medications with 'Confirm' buttons and dates. The right column, titled 'Rx History', shows a list of medications with a 'click on the chevron' callout and a 'Date' button. A right-hand sidebar provides patient information for 'T-Test, Bob' and lists clinical data sections like 'Allergies', 'Vital Signs', 'Problems', 'Home Meds', 'Lab Results', 'Diagnostic Imaging Reports', and 'Provider Notes'.

There is also a Comment button you can click to make a comment. These can be sorted by Date or by Name which you can change to by clicking the 'Date' button. For now, let's close the External Meds list by again clicking on the chevron next to 'Rx History'.

The screenshot shows a web application interface for managing medications. The main area is titled "Manage Medications" and displays a list of active medications for a patient named "T-Test, Bob". The list includes:

- apixaban 5 mg tablet (5 mg PO BID) - Unmatched
- metformin 500 mg tablet (500 mg PO BID) - Confirm
- metoprolol succinate ER 50 mg capsule sprinkle, ext. release 24 hr (50 mg PO DAILY) - Confirm
- ondansetron HCl 4 mg tablet (Zofran) (4 mg PO TID PRN) - Confirm
- oxycodone-acetaminophen 5 mg-325 mg tablet (Percocet) (1 tab PO Q8H) - Confirm
- prednisone 20 mg tablet (20 mg PO BID) - Stop

The "Confirm All" button is highlighted with a red box, and a green callout box points to it with the text "click the 'Confirm All' button". The interface also shows a sidebar with patient information and a list of tabs for Allergies, Vital Signs, Problems, Home Meds, Lab Results, Diagnostic Imaging Reports, and Provider Notes.

Now that you have stopped the medications you need to stop, the most efficient way to confirm the rest of the medications is to use the 'Confirm All' button instead of clicking Confirm for each medication individually. Click the 'Confirm All' button once more to confirm these medications.

The screenshot displays a web-based medical orders management system. At the top, there's a navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. Below this is a header for 'Orders' with search and queue management options. The main area shows a list of medications for patient 'T-Test, Bob'. The selected medication, 'ondansetron HCl 4 mg tablet (Zofran)', is expanded to show its details: '4 mg PO TID PRN', 'nausea and vomiting', and 'Pt doesn't take daily'. A 'Prescribe' button is highlighted with a red box, and a green callout bubble points to it with the text 'click the 'Prescribe' button'. Other medications listed include 'amoxicillin 500 mg PO BID', 'apixaban 5 mg PO BID', 'metformin 500 mg PO BID', 'metoprolol succinate ER 50 mg PO DAILY', 'oxycodone-acetaminophen 5-325 mg (Percocet) 1 tab PO Q8H', 'prednisone 20 mg PO BID' (marked 'Discontinued'), and 'tetracycline 500 mg PO Q12H' (marked 'Discontinued'). The right sidebar contains patient information (T-Test, Bob, 70, M, 08/07/1948, MRN# M000003033) and various clinical data sections like Allergies, Vital Signs, Problems, Home Meds, Lab Results, Diagnostic Imaging Reports, and Provider Notes.

Again, this returns you to the main medication screen. You can see all changes made in Med Rec are reflected on this page, with the discontinued medications at the bottom. To prescribe a changed med, click the 'Prescribe' button associated with Zofran.

This provides you with the Order overlay, prompting you to enter a quantity. Click on '30 tabs'.

Now that the printer overlay disappeared, click the 'OK' button on the Transmit/Print overlay.

The screenshot displays the MEDITECH Orders interface. At the top, there's a navigation bar with icons for Return To, Home, Workload, Chart, Document, Orders, Sign, Compose, More, and Suspend. Below this is a header for 'Orders' with search and queue management options. The main area shows a list of medications for patient 'T-Test, Bob', with columns for medication name, dosage, and date. Two medications, prednisone and tetracycline, are marked as 'Discontinued'. A right-hand sidebar provides patient details (70, M, 08/07/1948, MRN# M000003033) and a menu of clinical data points including Allergies, Vital Signs, Problems, Home Meds, Lab Results, Diagnostic Imaging Reports, and Provider Notes.

You are now returned to the main Orders screen. This concludes the lesson on writing prescriptions.

In this lesson we demonstrated how to:

- Review the patient's active medication list
- Make an edit to an existing medication on the list
- View and incorporate medications from outside sources
- Print a prescription for a medication that is on the patient's med list

MEDITECH best practice guidelines have been integrated into this lesson.

Please refer to your facility-specific workflows for process questions not covered in this course.
